## SUMMARY OF QUALIFICATION

---

Results-oriented **MERN Stack/Backend Developer** with experience delivering scalable and secure web and mobile applications. Currently working at a tech company on high-impact projects in ride-hailing, CRM, and recruitment domains. Strong in RESTful APIs, JWT/OTP-based authentication, MongoDB schema design, and clean, maintainable code. Focused on building performance-driven solutions that align with user and business needs.

## TECHNOLOGIES

---

**Frontend:** Frontend: React.js, Next.js, Vue.js (optional), Redux, Zustand, React Router

**Backend:** REST APIs, Express.js, Node.js, Modular Routing, Error Handling

**Database - Auth:** MongoDB, MongoDB Atlas, Firebase, JWT, OAuth, bcrypt, Passport.js, RBAC, OTP flows

**Mobile - UI:** React Native, Expo, Tailwind CSS, Bootstrap, Material UI, ShadCN UI

**Tools - Deployment:** Git, GitHub, Postman, npm, Yarn, dotenv, ESLint, Prettier, Render, Vercel, Netlify

## EXPERIENCE

---

**Backend Developer**, Abidi Solutions

April 2025 – Present

- Working on three large-scale commercial products across mobile, SaaS, and enterprise domains.
- Developed and maintained scalable RESTful APIs using Node.js, Express, and MongoDB for production use.
- Engineered secure authentication and session management using JWT, OTP, and role-based access control (RBAC).
- Contributed to backend architecture, clean code practices, and third-party API integrations.

**MERN Stack Intern**, Bano Qabil – Incubation Center, Clifton KHI

Sep 2024 – Dec 2024

- Contributed to a major project for Alkhidmat Services, delivering efficient and scalable solutions.
- Collaborated closely with a team to ensure seamless interaction.

## PROJECT EXPERIENCE

---

**Recruitment Job Placement Web System** (MERN Stack)

- Delivered multi-role recruitment workflows, including candidate application, shortlisting, interview scheduling, and placement tracking.
- Ensured complete compliance with local and global security and data privacy protocols.

**WanderLust – Like Air BNB website to rent out Houses**

Live

- Developed a full-stack Airbnb clone for renting houses and exploring vacation destinations
- Implemented secure authentication and robust error handling for seamless user experiences.
- **MVC Framework, Node Js, Express Js, MongoDB, JavaScript, HTML, CSS, Bootstrap.**

**Event Booking System with Real-Time Seat Management and Notifications**

Live

- Built a Event Booking System using the MERN stack, featuring real-time event management and booking functionality and email notification.
- Designed backend APIs with validations to prevent overbooking and ensure data integrity.
- **React Js, Node Js, Express Js, MongoDB, JavaScript, HTML, CSS, Tailwind CSS.**

## RELAVANT COURSE WORK

---

**MERN Stack Developement**, Completed a comprehensive MERN stack development course at Apna College Delta 2.0, mastering full-stack web development.

Sep 2023 – Aug 2024
